

CLUSTER GAUGE FACE CLIPS

This procedure details the circular clips under needles of 2002-2007 Subaru Impreza WRX combination meter gauges. If the clips are not fully seated the gauge face will interfere with the needle. **WARNING:** Do not apply heavy force! Slipping may scratch gauge face!

Needle with clip fully snapped in:

Needle with clip dislodged:

If a clip is not seated, carefully use a fine flatblade screwdriver to gently push the clip toward the gauge face until the clip snaps into the gauge. If the clip will not seat, slowly work around the clip circumference until the clip snaps in. Snapping the clip in:

Clips and needle removed:
